

## Razor Mesh and Concertina Fences

IDS offers unique razor and concertina barbed wire fences for detection and security systems providing effective increased delay time for breach. Barbed wires and concertina wires, manufactured by Chochrane, are available in a wide range of dimensions.

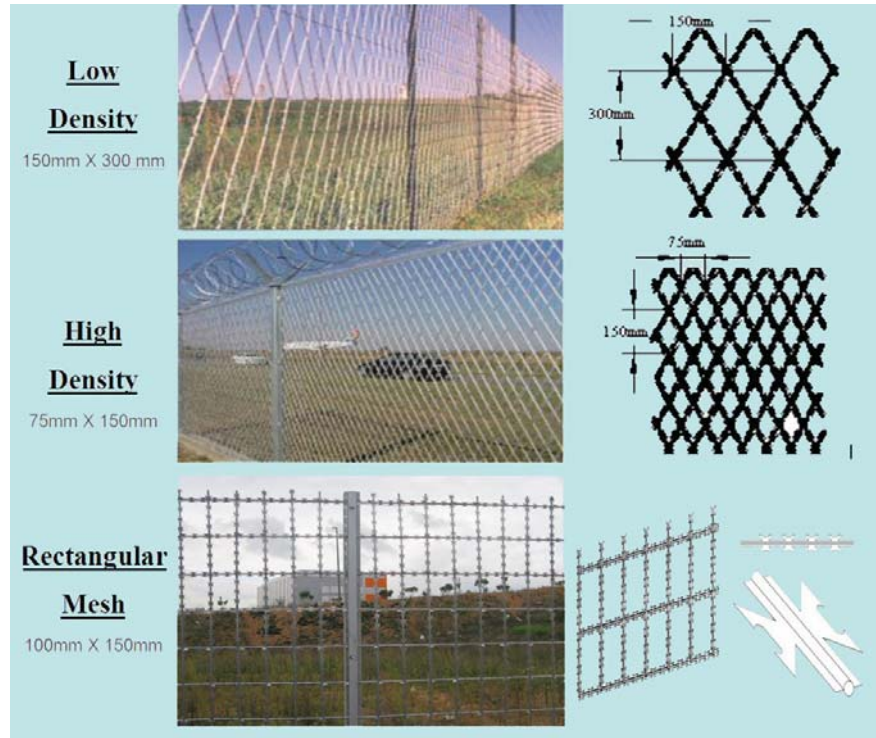

### Welded Razor Mesh Fence

Its features are uniquely suitable for delaying breach time and access control systems:

- Formidable physical barrier virtually impossible to climb
- Extremely hard to cut
- Can easily be added to existing fences, or used as a stand-alone perimeter fence
- Rigidity provides excellent foundation for a seismic intrusion detection system
- Easy installation
- Low-maintenance
- Sloped uprights available in various dimensions
- Razor spacing: Dense 75 x 150 mm  
Regular 150 x 300 mm
- Fence Height:  
Dense 1.6-2.4 meters (15 cm increments)  
Regular 1.6-2.4 meters (30 cm increments)

## Razor Mesh Type

## Concertina Razor Wire
